Tree console

WOUD

Tree console

Designed by Elizabeth Hertzfeld

The Tree Console table comes in two different heights with a Fenix laminate top in different earthy tones. Use the low version as a console table in the hallway or the tall table as a high workstation that easily can be integrated in your home. It is possible to add a shelf to install under the tabletop for additional storage of magazines, papers or desk tools.

Year
2022

Category / type
Tables / console table

Materials

Tree console

Designed by Elisabeth Hertzfeld

English text

The metal legs, ramifying like the branches of a tree, highlight the sleek and graphic design of the Tree Console. Each leg is made of two steel tubes rising first side by side before their path separates to support the tabletop in both ends. Creating an arborescent pattern, inspired by the lightness trees create rising in vertiginous heights. Like a bundle of stems, the legs lift the top illustrating the leafy canopy. Making the console a light design.

The Tree Console table comes in two different heights with a Fenix laminate top in different earthy tones. Use the low version as a console table in the hallway or the tall table as a high workstation that easily can be integrated in your home. It is possible to add a shelf to install under the tabletop for additional storage of magazines, papers or desk tools.

Designed by Elisabeth Hertzfeld
A French-American designer. Fascinated by materials and their transformation, Elisabeth Hertzfeld strives to discover the decent balance between the effort engaged on a material and its effect. With an aim to create pure pleasure, she imagines a behaviour, a way of life, that can be connected to the design.

Danish text

Tree konsolbordet er med sine slanke metalben og smalle bordplade et elegant og grafisk design. Hvert ben består af to rør, der først rejser sig side om side for til sidst at skille deres veje for at understøtte bordpladen i hver sin ende. På samme tid skaber benene en illusion af forkromede grene. Et mønster der er inspireret af den lethed, som træer skaber, når de skyder op med himlen.

Konsolbordet findes i to højder med en Fenix laminatbordplade i forskellige afdæmpede nuancer inspireret af naturen. Det smalle design gør det optimalt at anvende konsolbordet som en mindre hjemmearbejdsplads eller som opbevaring i entréen, hvor pladsen kan være trang. Hertil er det muligt at opbevare elektronik, papir eller skriveredskaber ved at tilføje en hylde under bordpladen.

Designet af Steffensen & Würtz
Elisabeth Hertzfeld er en fransk-amerikansk designer. Hun dimitterede fra Ecole nationale supérieure des Arts Décoratifs i Paris, i 1995, i scenografi, hvilket er med til at give hende en holistisk og poetisk tilgang til design.
